The Honorable Rosa DeLauro
Ranking Member
Committee on Appropriations
1036 Longworth HOB
Washington, D.C. 20515

I am requesting funding for the expansion the installation of meteorological monitoring stations in the state of Nevada. The entity to receive funding for this project is the University of Nevada Reno, located at 1664 N. Virginia St. Reno, NV 89557. The funding would support the deployment of 15 meteorological stations across the state of Nevada. This project is an appropriate use of taxpayer funds because it would provide real-time data visualization and community outreach to improve flood, fire, and water supply forecasting, including enhanced data to support downstream and coastal communities.

The project has a federal nexus because the funding provided is for purposes described in the Coastal Zone Management Act of 1972 (16 U.S.C. § 1451 et seq.).

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Mark E. Amodei

Member of Congress
