The Honorable Rosa DeLauro
Chairwoman
House Committee on Appropriations
Washington, D.C. 20515

The Honorable Kay Granger
Ranking Member
House Committee on Appropriations
Washington, D.C. 20515

Dear Chair DeLauro and Ranking Member Granger,

I am requesting funding City of Reno Booth Street Sewer Siphon in fiscal year 2023. The entity to receive funding for this project is the City of Reno, located at 1 E. First St, Reno, NV 89501.

This project will replace the aging and undersized Booth Street sewer siphon and approximately 1,100 feet of un-reinforced concrete sewer main. The project is important not only to management of infrastructure needs to meet ongoing growth in the Reno area, but also to ensure the continuation of the safe and healthy water supply for Reno residents.

As the Booth Street sewer siphon traverses under the Truckee River, any blockage or spill will have an adverse impact to the sensitive environment of and water supply to the Truckee Meadows. Master planning efforts have identified locations upstream of this siphon, based on land use, that will increase sewer flows. The replacement siphon will be sized to handle these future flows. This is of great importance to the City of Reno and its residents.

I certify that neither I nor my immediate family has any financial interest in this project.

Sincerely,

Mark E. Amodei
Member of Congress
